

CONGRESS OF THE UNITED STATES

Joint Committee on Printing

ER 60-2245

Washington

November 21, 1960

The Director  
Central Intelligence Agency  
Washington, D. C.

My dear Sir:

Reference is made to your request to include a dull litho-coated book paper in the "Government Paper Specification Standards."

Careful review indicates that Government usage of the subject paper is too limited to warrant inclusion in the "Standards." Consequently, that request is not approved.

However, pursuant to your justification, the Joint Committee on Printing approves an exception to the "Standards" whereby the Agency may procure its requirements of the referenced paper in accordance with the specifications accompanying the request.

Very truly yours,

/s/ Carl Hayden

Chairman
